1. INTRODUCTION

Missang Limited, company number 13030997, is headquartered at 1 Horse Guards Avenue, London, England, SW1A 2HU. Our company specialises in assisting businesses, financial backers, development agencies, and government entities by providing deep political and cultural insights, helping them navigate complex operational environments. We ensure high-level access and influence to achieve positive outcomes in international trade and industry.

Our services are tailored to each client's specific needs, aligning country and sector-specific contexts with their unique questions and concerns. Through our Strategic Advisory, we leverage our extensive political and socio-cultural expertise in African markets and Global Britain to help clients mitigate risks and capitalise on opportunities. Our broad network spans the public and private sectors in the UK, the Middle East, Europe, and Africa, enabling us to facilitate effective stakeholder engagement swiftly.

Additionally, we are leaders in technological innovation, assisting clients in adopting and optimising relevant technologies. As we commit to achieving Net Zero by 2040, this carbon reduction plan outlines our strategies for minimising environmental impact while continuing to deliver exceptional value to our clients and partners.

2. COMMITMENT TO ACHIEVING NET ZERO

Missang Limited is committed to achieving Net Zero emissions by 2040. As a company deeply involved in international trade, strategic advisory, and technological innovation, we recognise our responsibility to minimise our environmental impact. Our approach includes reducing carbon emissions across all operations, adopting sustainable practices, and integrating energy-efficient technologies. We will collaborate with clients, partners, and stakeholders to ensure that our efforts align with global sustainability goals. This commitment is integral to our mission of delivering value while contributing to a more sustainable future for all.

3. BASELINE EMISSIONS FOOTPRINT

1st April 2023 31st March 2024

Scopes and categories ¹	Metric CO ₂ e	tons
Scope 1: Direct emissions from owned/controlled operations	0.00	
Scope 2: Indirect emissions from the use of purchased electricity, steam, heating, and cooling	0.00	
Upstream scope 3 emissions		
Category 1: Purchased goods and services	0.00	
Category 2: Capital goods	0.00	
Category 3: Fuel- and energy-related activities (not included in scope 1 or scope 2)	0.00	
Category 4: Upstream transportation and distribution	0.00	
Category 5: Waste generated in operations	0.00	
Category 6: Business travel	1.8338	
Category 7: Employee commuting	2.6307	
Category 8: Upstream leased assets		
Other Hotel Stay	0.0695	
Other Home Working	3.0761	

¹ Further disaggregation of certain categories is necessary. Additionally, categorisation of scope 3 activities is not followed as prescribed in the standard, we have indicated as Others.

Category 9: Downstream transportation and distribution	0.00
Total	7.6101

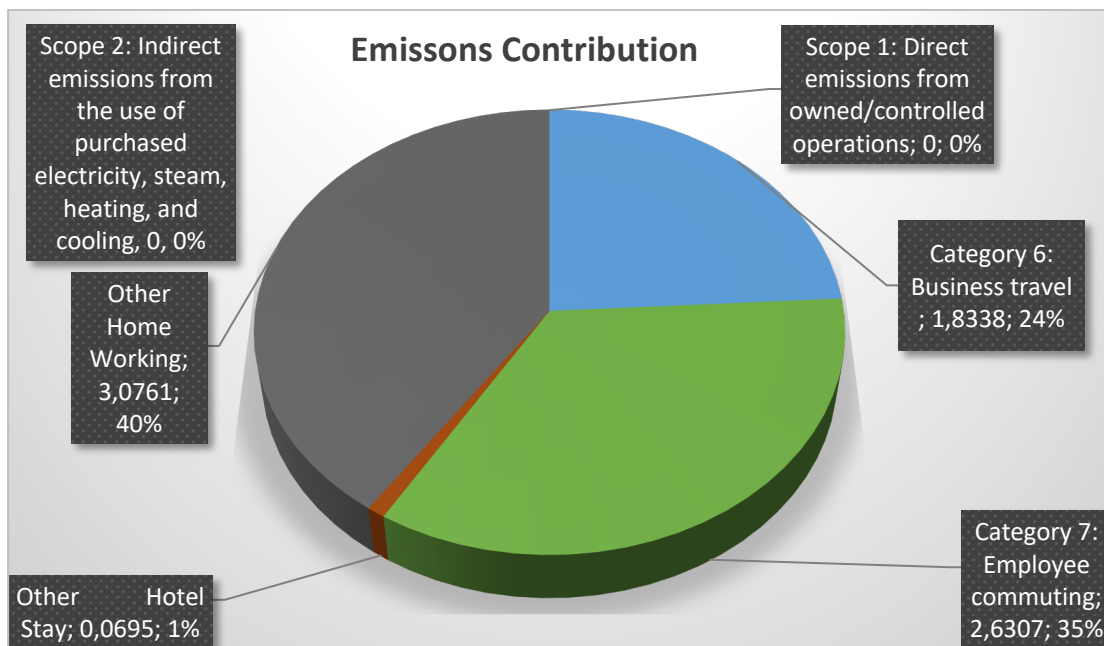

Breakdown

Business Travel

Rail	National rail	0.1775
Rail	London Underground	0.0695
Taxis	Regular taxi	0.3124
Cars (by size)	Medium car	1.2744

Office Commute

Cars (by size)	Medium car	2.3243
Rail	National rail	0.3064

4. ZERO EMISSIONS EXPLANATION

Missang Limited's business activities and processes are designed to have minimal environmental impact, resulting in zero emissions across most categories. Our operations do not involve direct emissions (Scope 1), nor do we generate indirect emissions from purchased electricity, steam, heating, or cooling (Scope 2). Additionally, we maintain zero emissions in

key upstream Scope 3 categories, including purchased goods and services, capital goods, fuel- and energy-related activities, and transportation.

Current Emissions Reporting

1st April 2023 31st March 2024

Since this is Missang Limited's first carbon reduction plan, the baseline and current reporting periods are identical. Our initial assessment covers all emissions from 1st April 2023 to 31st March 2024. The total reported emissions for this period amount to 7.6101 tCO₂e, primarily from business travel, employee commuting, hotel stays, and home working. This report sets the foundation for future emissions tracking and reduction efforts.

5. EMISSIONS REDUCTION TARGETS

Missang Limited is committed to achieving Net Zero emissions by 2040. To meet this goal, we have set the following emissions reduction targets:

- **By 2025:** Reduce total emissions by 20%, focusing on minimising emissions from business travel, employee commuting, and home working.
- **By 2030:** Achieve a 50% reduction in overall emissions through further adoption of remote work practices, enhanced sustainable travel options, and energy-efficient technologies.
- **By 2040:** Reach Net Zero emissions, offsetting any remaining emissions through credible carbon offset initiatives and further optimising operational efficiency.

These targets align with our commitment to sustainability and the global push towards a low-carbon economy.

6. CARBON REDUCTION INITIATIVES

To achieve our Net Zero emissions target by 2040, Missang Limited will implement the following carbon reduction initiatives:

1. **Sustainable Travel Policies:** Encourage the use of low-emission transportation options and virtual meetings to reduce business travel emissions. Introduce incentives for employees to use public transport, carpool, or cycle to work.
 2. **Remote Work Optimisation:** Expand remote work opportunities to decrease the need for commuting and reduce energy consumption associated with office operations. Provide employees with guidelines for energy-efficient home working setups.
 3. **Energy Efficiency in Operations:** Invest in energy-efficient technologies and practices, such as switching to energy-saving office equipment and optimising the use of heating and cooling systems.
-
-

4. **Green Procurement and Supply Chain Management:** Prioritise the purchase of environmentally friendly goods and services. Collaborate with suppliers to ensure they adopt sustainable practices, reducing the overall carbon footprint of our supply chain.
5. **Employee Engagement and Training:** Implement training programs to raise awareness and encourage sustainable practices among employees, empowering them to contribute to our carbon reduction goals.
6. **Supply Chain Collaboration:** Work closely with our supply chain partners to embed sustainability into their operations, ensuring alignment with our carbon reduction objectives and enhancing transparency across all stages of the supply chain.
7. **Carbon Offsetting:** Explore credible carbon offset projects to neutralise any remaining emissions that cannot be eliminated through operational changes.

These initiatives will help us systematically reduce our carbon footprint and ensure progress toward our Net Zero commitment.

7. DECLARATION AND SIGN OFF

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard² and uses the appropriate Government emission conversion factors for greenhouse gas company reporting³.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard⁴.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of MISSANG LIMITED:
